

Misrepresentation of Borrower Employment Scheme (California)

Fannie Mae's Mortgage Fraud Program alerts the industry to potential and active mortgage fraud scenarios. In 2018, Fannie Mae posted three Fraud Alerts regarding apparently fictitious employers located in California. Fannie Mae has identified additional entities located in California that appear to be fictitious employers. This alert identifies those entities and also lists the entities identified in the prior alerts.

Loan common denominators / characteristics

Fannie Mae's Mortgage Fraud Program has identified several entities listed on loan applications as places of employment that appear to be fictitious. The following list contains 65 entities / businesses that were listed as the borrower's purported place(s) of employment but whose existence Fannie Mae could not confirm. Red flags

- TPO / broker loans
- Originated 2015–2019 (present)
- Employment (occupation) does not “sensibly” coincide with borrower’s profile (age or experience)
- California (geographic common denominator)
- Borrower on current job for short period of time
- Prior borrower employment shows “Student”
- Starting salary appears high
- Purported employer does not exist
- Employer’s purported location cannot be ascertained
- Paystub templates are similar for various employers across other (involved) loan files
- Paystubs sometimes lack typical withholdings (health, medical, 401(k), etc.)
- Gift letters are substantial and are not (or cannot be) supported through re-verification

For examples of red flags, please see the exhibits beginning on page 4.

What can lenders do?

Prudent origination, processing, and underwriting practices should include looking for red flags in the loan documents that raise questions about the transaction. Verify that the borrower’s place of employment actually exists and obtain supporting documentation. If one of these entities is disclosed as the borrower’s place of employment, exercise due diligence in reviewing the entire loan file. Lenders must exercise caution in these situations and take appropriate steps to prevent the institution from being the victim of fraud.

If suspicion of fraud exists

- Follow established policies and procedures within your organization and the Fannie Mae *Selling Guide*.
- Follow the “Report Mortgage Fraud” instructions on the [Mortgage Fraud Prevention web page](#).

More general steps lenders can take to detect and prevent fraud

- Know your third-party originators/brokers.
- Be “fraud smart” by educating your staff.
- Establish a zero tolerance fraud policy.
- Share information.
- If the loan doesn’t make sense, don’t do it!
- Report any suspicious activity through established channels.

Watch for further “Fraud Alerts” and potential updates to this fraud ring by monitoring the

[Mortgage Fraud Prevention web page](#).

See Red Flag exhibits on pages 3–7.
